VM SERIES
STANDALONE & NETWORKED
LIFE SAFETY SOLUTIONS

PROTECTION YOU CAN COUNT ON

Kidde Commercial VM Series life safety control panels bring unrivaled flexibility and performance to mid- and large-sized applications. Their multi-message displays, intuitive interfaces and the ability to support the exact features you need mean Kidde Commercial has your back.

NETWORKING

A simple VM network can comprise up to 24 panels—enough to serve the needs of most campuses and large building applications.

SPEED

Highly efficient RS485 connectivity and fiber-optic communications deliver faster response times and more sophisticated diagnostic capabilities.

VERSATILITY

A range of option cards extends networking, audio and communications capabilities, so VM control panels let you fine-tune your system to have the features you want at the lowest price.

RETROFIT-READY

Designed to be backwards compatible, the VM Series, in most cases, lets you use existing wiring to upgrade a legacy control panel to the latest Kidde Commercial technology.

POWER

The VM Series features patented Voltage Boost™ technology, delivering a constant 22.5 volts and allowing a lighter-gauge cable to be used, for a high-performance, cost-effective solution.

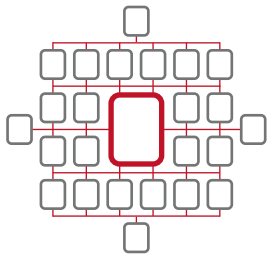

SYNCHRONIZED

The VM Series' four on-board Notification Appliance Circuits are synchronized to UL 1971 standards, and its 10-amp power supply lets you get the most out of the Genesis notification appliances.

SCALABILITY AT ITS FINEST

The VM Series delivers high-performance features exactly where you need them. Whether you need a single standalone control panel or a sophisticated network of multiple panels, the VM Series brings smarter, faster, higher-capacity processing and more-efficient infrastructure to your property.

HIGH-TECH NETWORKING

A VM Series network can include up to 24 panels with quick response times and sophisticated diagnostics.

BUILT-IN VERSATILITY

The VM control panel has room for up to 3 fully programmable front panel switches.

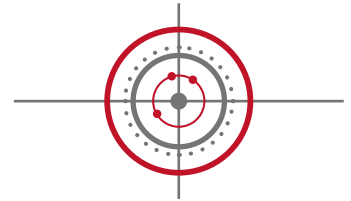

NEXT-LEVEL POWER

A 10-amp power supply is finely tuned to get the most out of Genesis notification appliances.

HIGH-QUALITY AUDIO

VM Series boasts 3 channels of integrated digital audio plus 2 minutes of on-board programmable message storage.

SUPER-INTELLIGENT DETECTION

VM Series features smoke detection and Carbon Monoxide gas sensing with Optica detectors.

FORWARD-FACING INTEGRATION

A VM Series network is fully compatible with existing and new Genesis notification appliances.

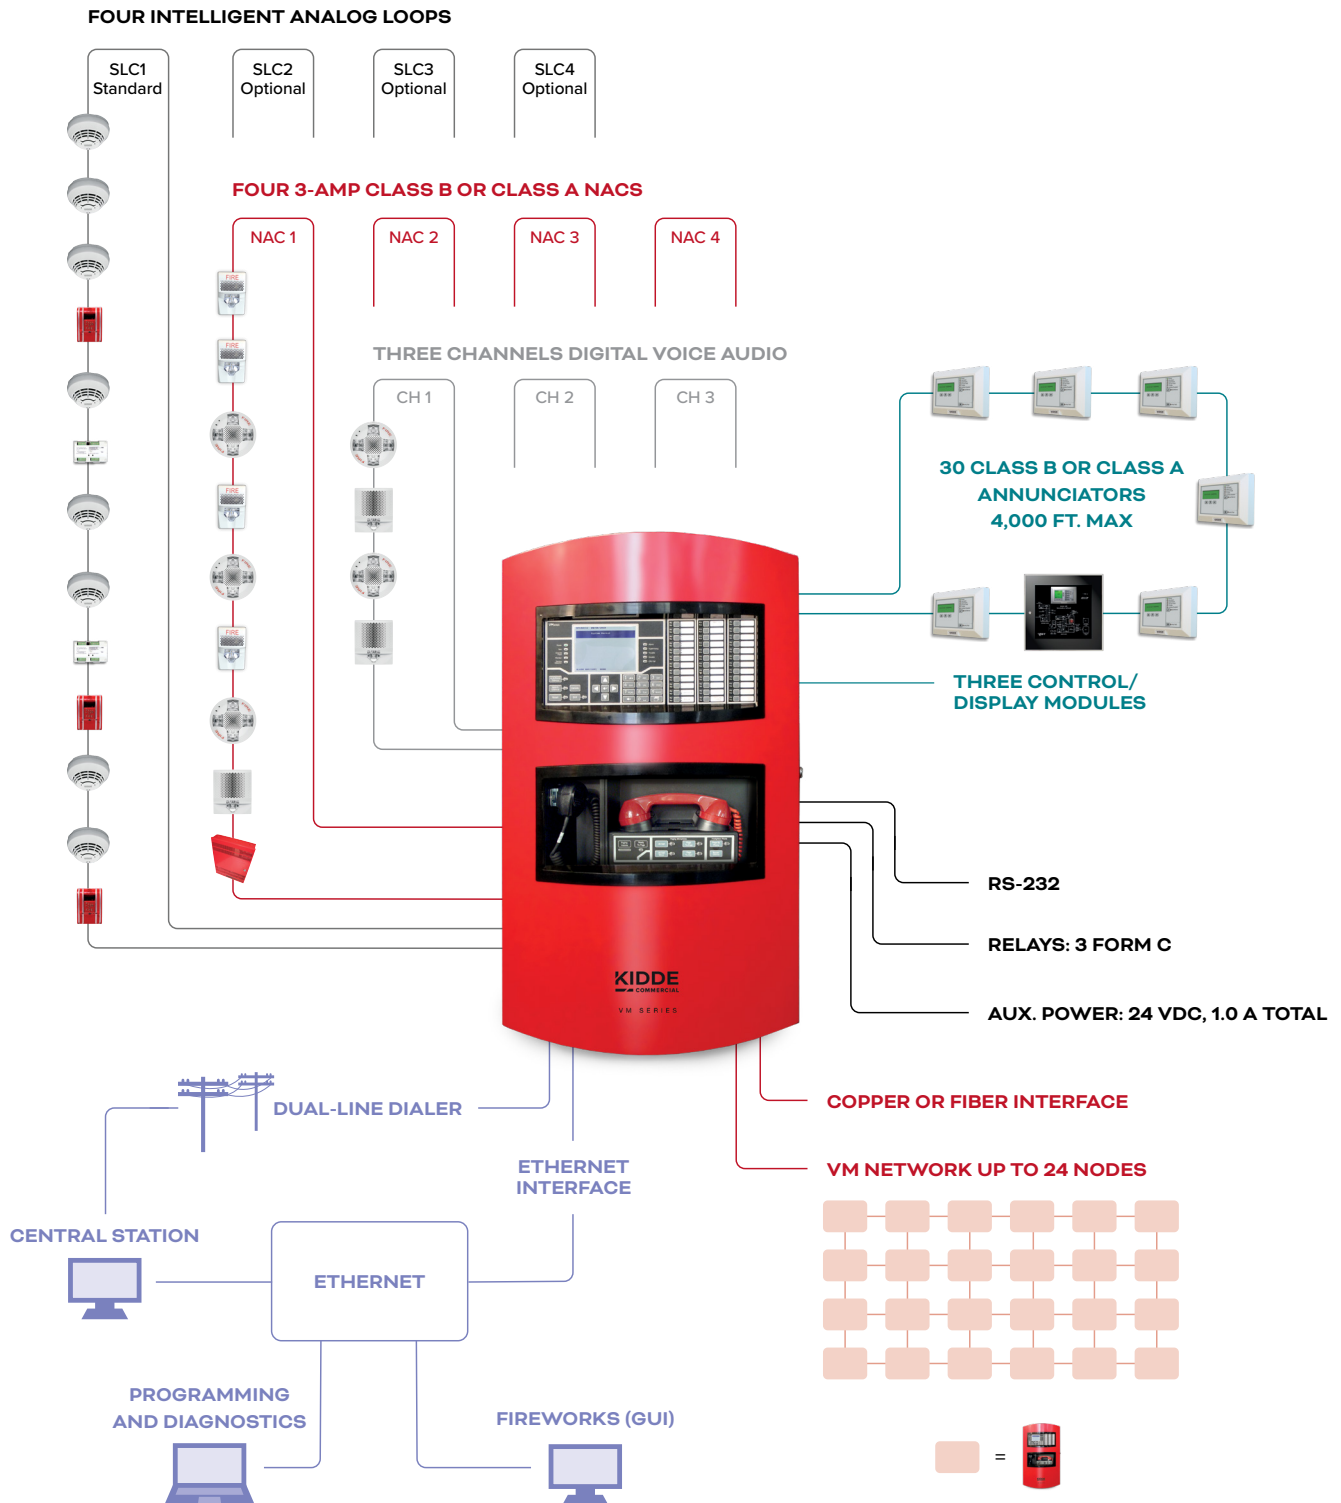

BUDGET-FRIENDLY COMPATIBILITY

Each control panel can support up to 30 R-Series LCD, LED annunciators.

YOUR FACILITY, YOUR SYSTEM

Nothing about your application is cookie-cutter, so why should your life safety system be?

With a variety of option cards, the VM Series lets you fine-tune your system's capabilities to match your unique needs.

THE RIGHT PARTNER IN PROTECTION

Kidde Commercial is a world leader in the fire and life safety industry because we understand there's more to safety than equipment and technology. We take the time to collaborate with builders, owners, architects and engineers to cultivate partnerships with community initiatives and non-profits and to educate professionals and customers alike in fire and life safety.

See what's possible for your business.
